Replacing a bad tube meant checking among ENIAC's 19,000 possibilities.

ЭВМ 1940

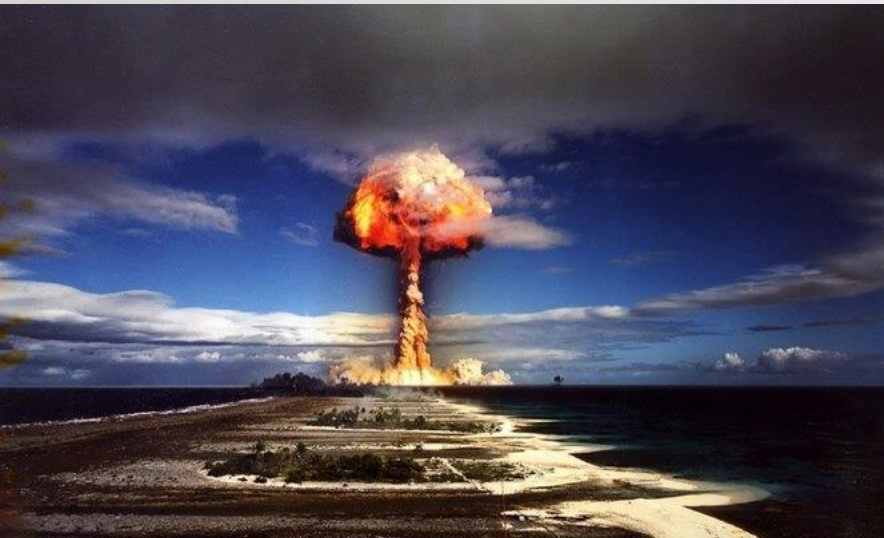

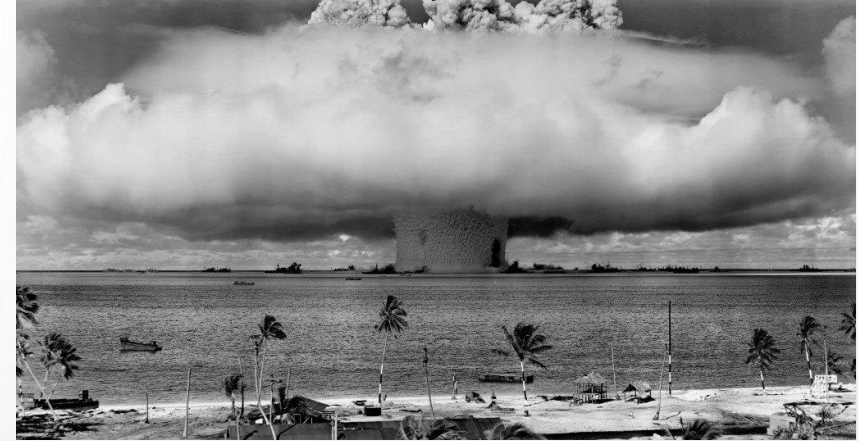

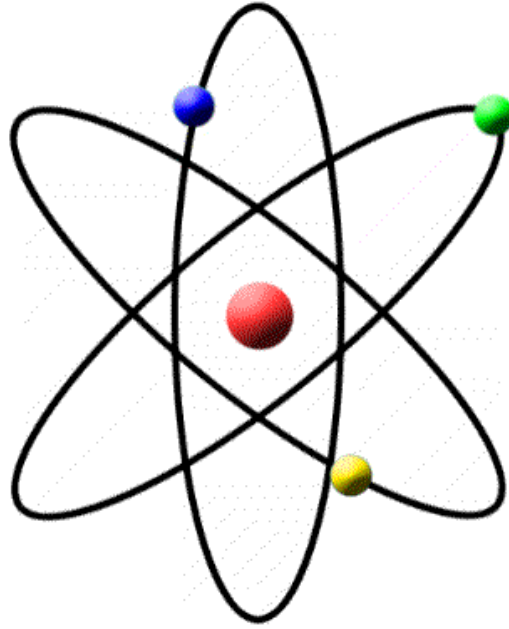

- Массовое производство продуктов питания
- Рост населения Земли
- Развитие отраслей производства
- Использование фабричной и бытовой техники

- Истощение природных ресурсов,
- Выбросы углерода,
- Загрязнения окружающей среды
- Проблемы со здоровьем человека
- Сокращение видового разнообразия
- Нарушился круговорот веществ

ЭТАП НАУЧНО-ТЕХНИЧЕСКОЙ РЕВОЛЮЦИИ

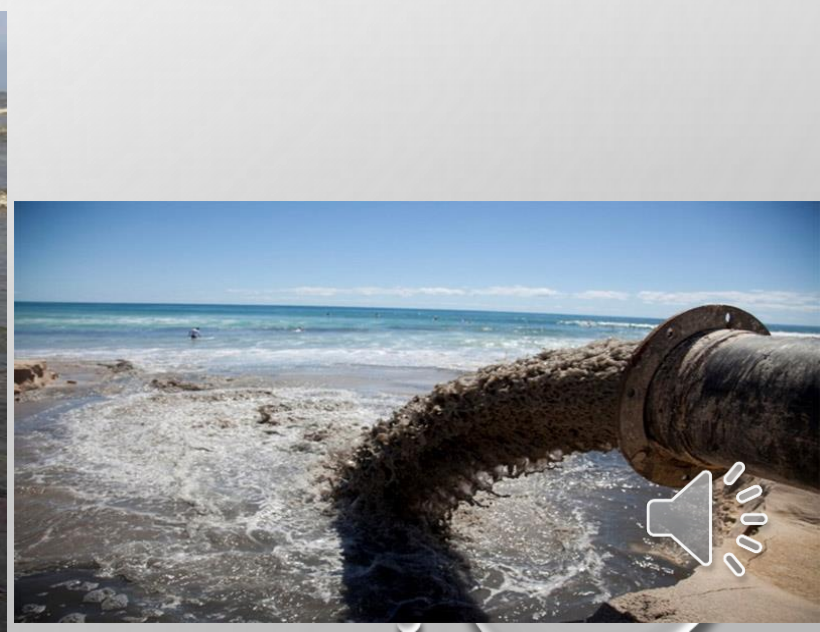

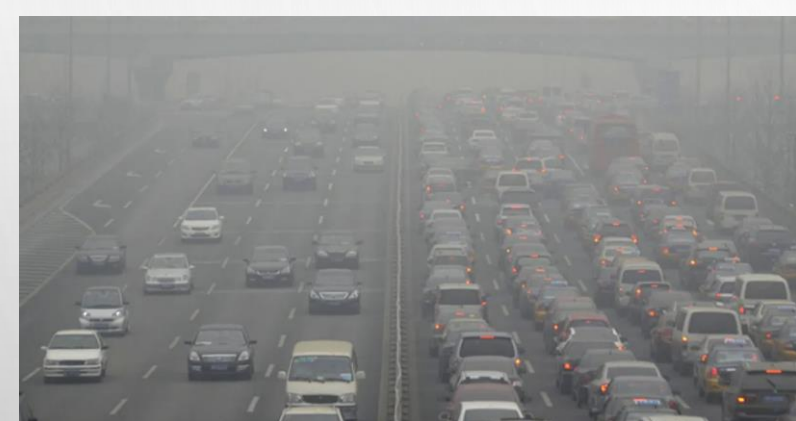

УГРОЗА ЭКОЛОГИЧЕСКОГО КРИЗИСА

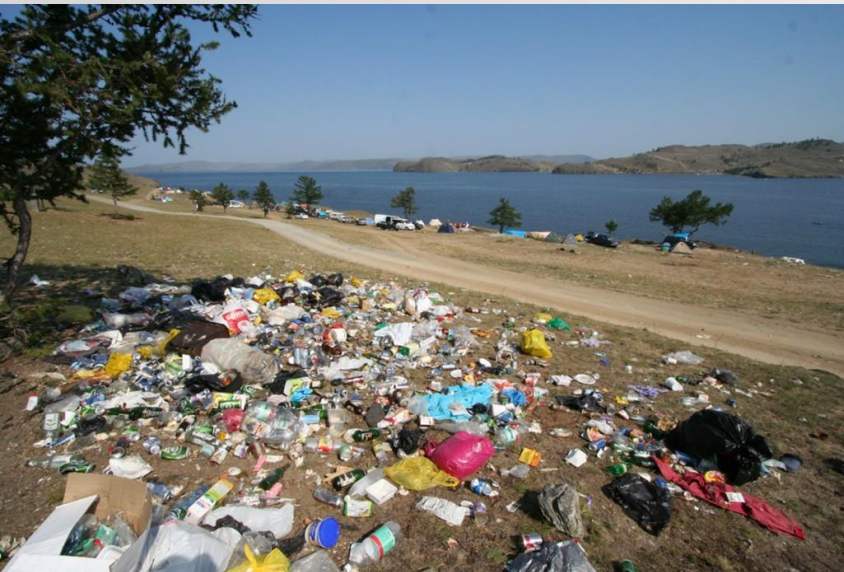

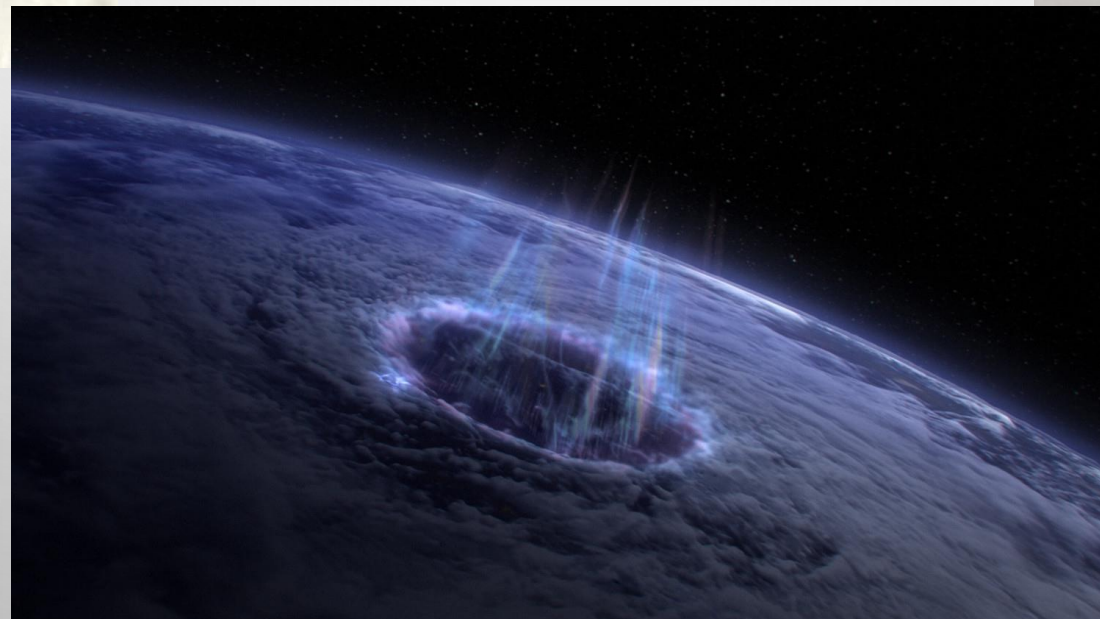

ПРИЧИНЫ ВОЗНИКНОВЕНИЯ ЭКОЛОГИЧЕСКОГО КРИЗИСА

Изменение климата Земли

Сокращение мощности стратосферного озонowego экрана

Загрязнение Мирового океана

Истощение и загрязнение вод суши

Радиоактивное загрязнение среды

Загрязнение почв

Накопление твердых отходов

опустынивание планеты

Сокращение площади лесов

Сокращение биоразнообразия

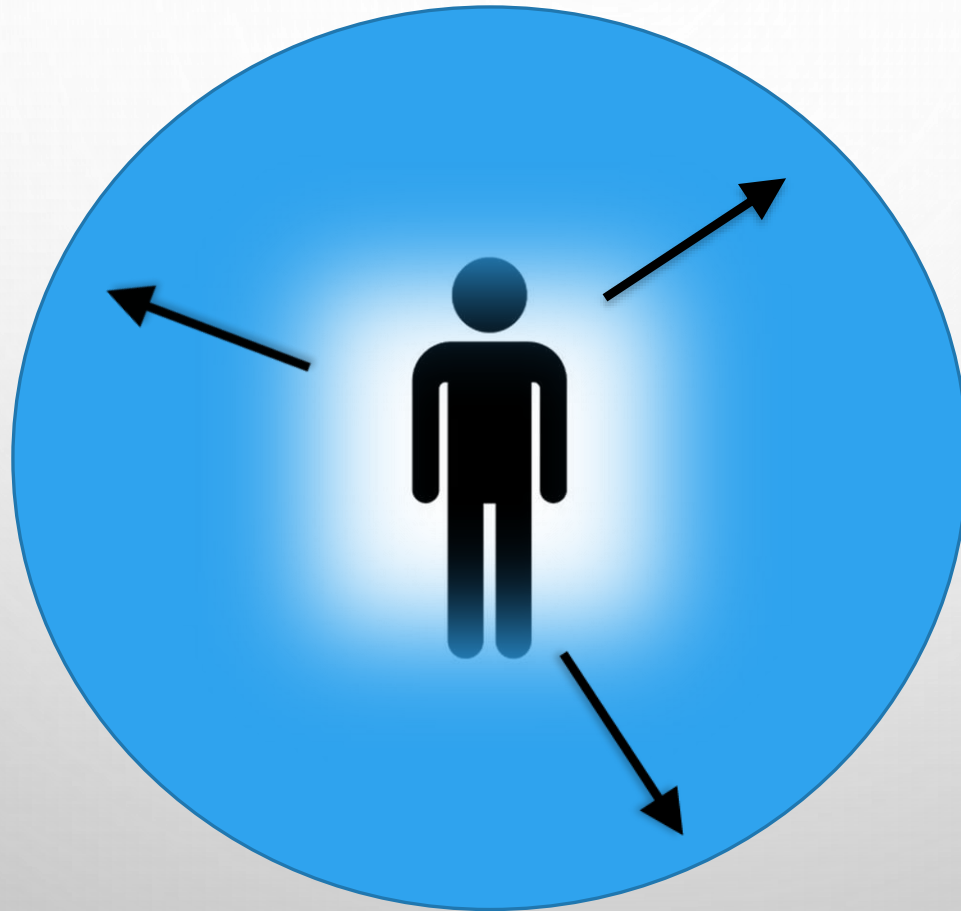

Перенаселение Земли
